Define your problem statement

There are a lot of cases where people have lost their lives because of drowning in the swimming pools. This can be because of carelessness too. But it is totally avoidable and many lives can be saved if taken with an effective action. the project is to find a solution to prevent drowning by using some alert systems.

How can the drowning person be identified?

Go for volume.

Key rules of brainstorming To run an smooth and productive session Stav in topic. Encourage wild ideas. Defer judgment. Listen to others.

If possible, be visual.

Write down any ideas that come to mind that address your problem statement.

Brainstorm

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.
